

TRANSFORM YOUR  
BUSINESS WITH DATA

# W-IWMS

Automation solutions for warehouses.  
Track and trace to warehousing,  
fulfillment and delivery.

# WAREHOUSE CHALLENGES

Impacting warehouse efficiency

Too much of manual data entry & cause human error & low productivity.

High operation cost due to too much of paper work & manual operation.

Material traceability issue because there is no integration between warehouse operation & current ERP system.

Difficult to implement FIFO control.

Hard to track the actual location of stock items.

# W-IWMS

The culmination of  
warehouse automation

Automating various components  
of your warehousing operations.

---

Simplify the processes of stocking,  
storing, inventory, labeling  
& packaging.

---

Minimizing the number of human  
workers while decreasing errors.

## Reliable partner for value-added warehouse automation

W-IWMS is a complete fully integrated modular solution to manage customers' warehouses. It brings efficiency and flexibility and constantly optimizes your inventory levels and resources.

# BENEFIT OF W-IWMS

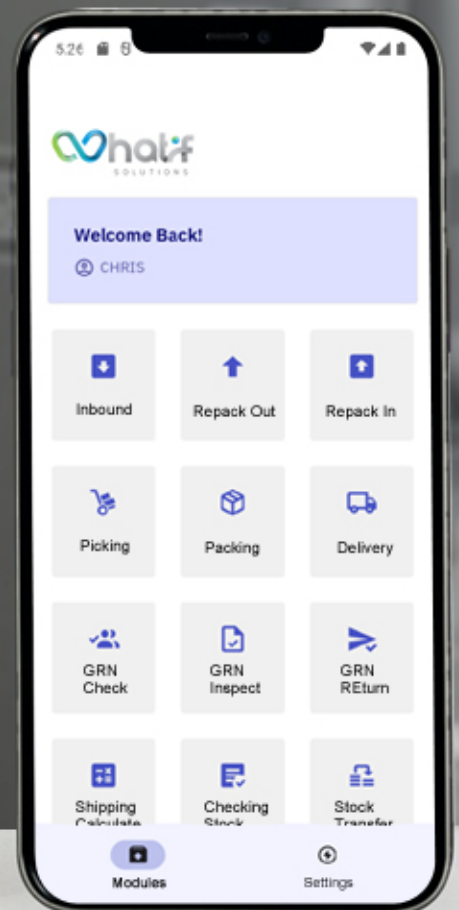

- ◆ Decrease need for manual labor.
